KRION SHELL®

KRION SHELL®

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

3/4 MINERALS

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

1/4 ECO-FRIENDLY RESINS

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

SCS Global Service, a leading North-American independent environmental certification agency, verifies and guarantees that all certified products made of Krion Shell® contain at least 5% recycled waste plastic in their composition, hence contributing to more sustainable, environmentally-friendly manufacturing processes.

**At least 5% waste plastic is
used in its total composition**

Material origin

75% of its composition is mineral.

Sustainability

Not only does it contain a minimum of up to 5% recycled material; it is a resistant, durable product with a long life cycle.

Resistance to impact

Krion Shell® is capable of incredible resistance to common impacts in a bathroom.

Resistance to staining

Its zero-porosity makes it more resistant to stains, including those which have remained for a long time.

Safe

Krion Shell® is tested under strict trials which certify that it is a safe product, free of dangerous components.

Easy cleaning

Its easy cleaning allows time and the use of cleaning products to be reduced.

Repairable

In the unlikely case of damage to the surface, it is possible to repair it using a special Kit.

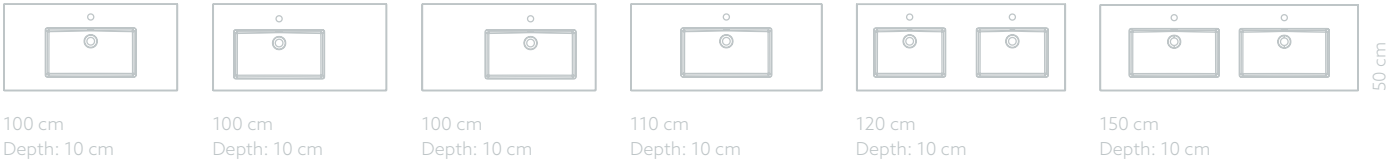

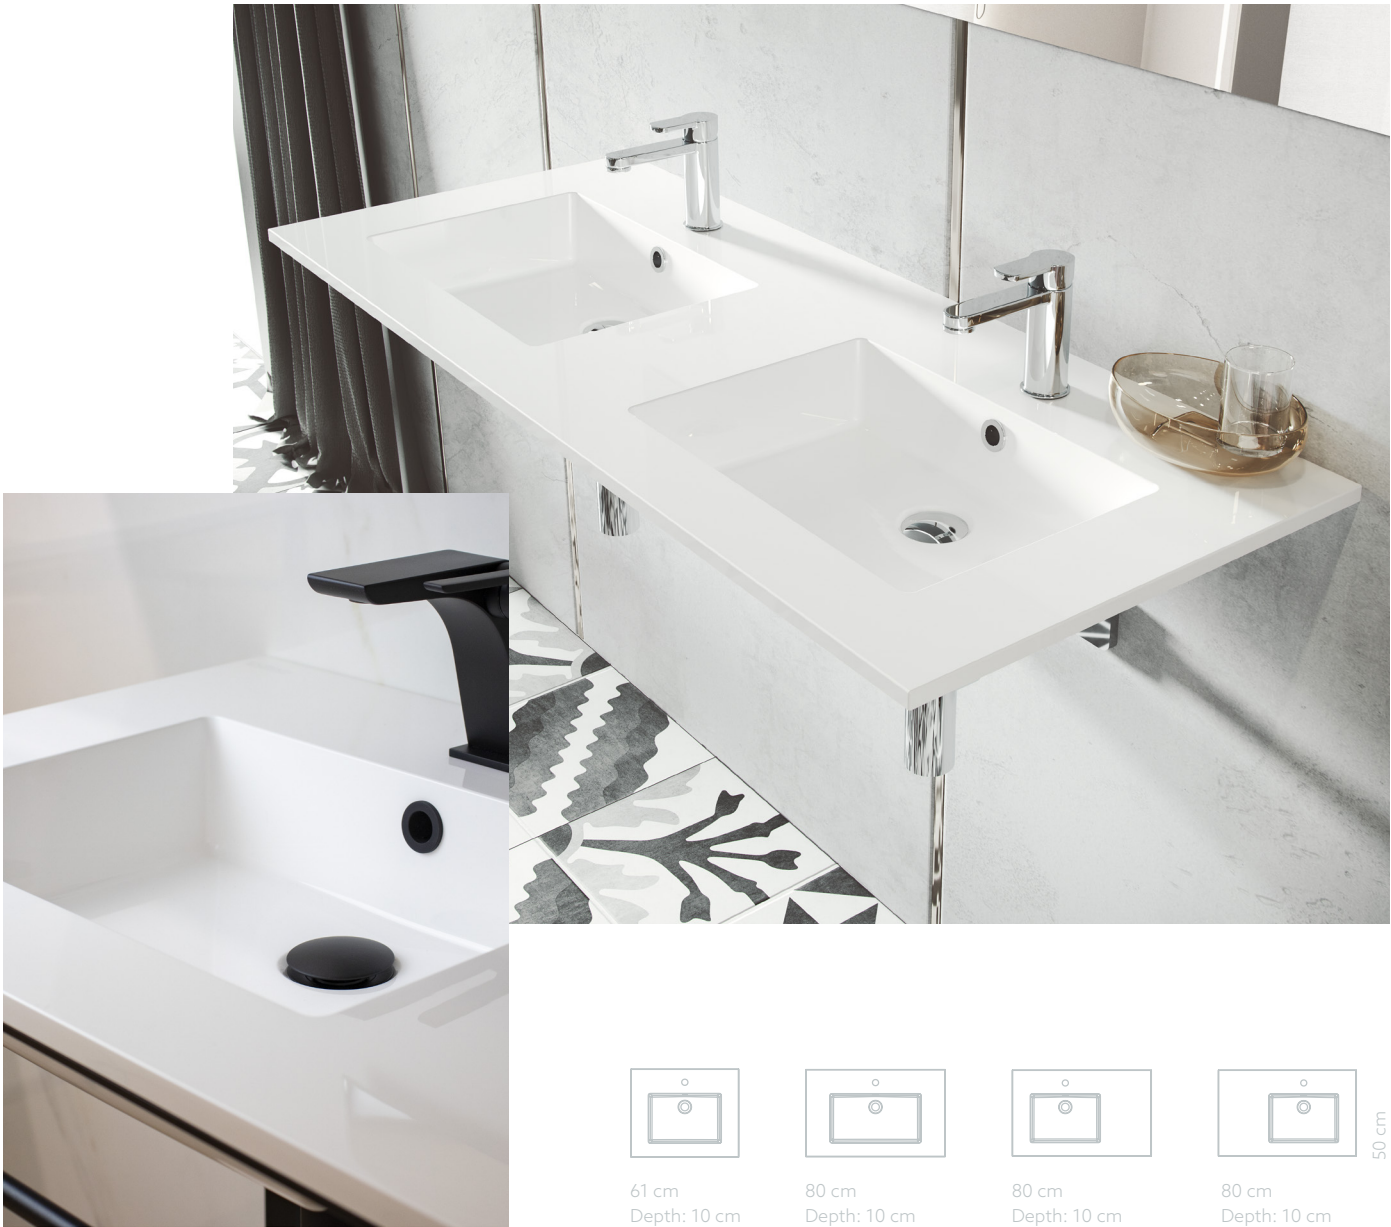

WORKTOP

Spirit worktops with integrated washbasin with a minimalist look, made with Krypton Shell® technology, guarantee excellent quality and durability.

They are available in the following formats; 61 cm; 80 cm and 100 cm with left, right or centered basin; 110 cm; 120 cm; and 150 cm. These last two featuring double basin.

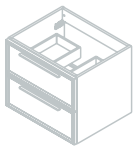

Its only 15 mm thickness offers a light sensation.

All these formats are available in white, gloss and matte finishes. Chrome overflow included, and available in black as an extra.

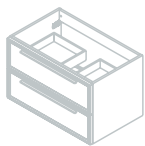

UNIT

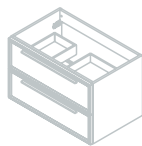

The Spirit series furniture has a minimalist design, great storage capacity and resistance. In addition, it is compatible with the NER, Kole, Smart series by Krion® Solid and One and Natural series by Krion Shell®.

METALLIC UNIT

The Spirit series has a free-standing structure available in matte black. It has a lower shelf in white lacquer which increases the storage capacity of the bathroom.

Ideal for hotels or bathrooms where extra space is required.
