WORKTOPS · UNIT · SHELF

### Material origin

75% of its composition is mineral.

### Sustainability

Not only does it contain a minimum of up to 5% recycled material; it is a resistant, durable product with a long life cycle.

### Resistance to impact

Krion Shell® is capable of incredible resistance to common impacts in a bathroom.

### Resistance to staining

Its zero-porosity makes it more resistant to stains, including those which have remained for a long time.

### Safe

Krion Shell® is tested under strict trials which certify that it is a safe product, free of dangerous components.

### Easy cleaning

Its easy cleaning allows time and the use of cleaning products to be reduced.

### Repairable

In the unlikely case of damage to the surface, it is possible to repair it using a special Kit.

# KRION SHELL®

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

## 3/4 MINERALS

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

## 1/4 ECO-FRIENDLY RESINS

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

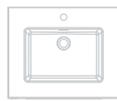

SCS Global Service, a leading North-American independent environmental certification agency, verifies and guarantees that all certified products made of Krion Shell® contain at least 5% recycled waste plastic in their composition, hence contributing to more sustainable, environmentally-friendly manufacturing processes.

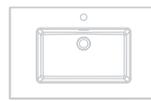

**At least 5% waste plastic is used in its total composition**

# WORKTOP

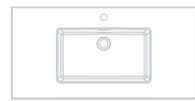

The ARROW Series features countertops made of Krypton® Shell, a high-quality material available in white, both glossy and matte finishes. The countertops can be chosen with or without an integrated towel rail, offering solutions adapted to different needs. Their self-supporting design allows them to be fixed directly to the wall with screws, ensuring a firm and aesthetic installation. They incorporate an overflow and a large-format skirt, providing a modern and uniform look.
