Eclipse

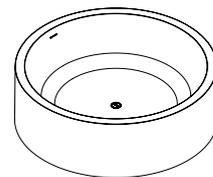

SERIES

KRION® SOLID

BATHTUBS

The series stands out for its large round bathtub, a sculptural piece with a striking presence that invites relaxation and reconnection with the essentials.

Ø170 cm · 55h

- Krion® Solid 100379816
- Clay Texture 100382686

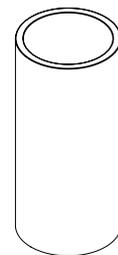

Eclipse is the new bathroom collection that represents a design statement: a fusion of contemporary elegance and the soul of craftsmanship. Created with Krion® Solid, this series has been designed for those who see the bathroom as a space for well-being, personal care and aesthetic expression. Its design responds to a language of organic shapes and soft lines that convey calm, balance and sophistication.

One of Eclipse's great attractions lies in its variety of finishes. The collection is available in both the classic smooth and silky version of Krion® Solid and in a textured finish, which is applied manually, making each piece unique and full of character. This duality of finishes allows the collection to be adapted to different interior design styles, while maintaining the quality and purity of the material.

WASHBASINS

Eclipse offers three washbasin models: one floor-mounted and two countertop models, available in both finishes. These elements integrate seamlessly into any bathroom environment, providing functionality without compromising the aesthetic essence that defines the collection.

DRAWER UNIT

As the perfect complement, the proposal is rounded off with furniture in Breeze Oak tones, which add warmth and contrast to the ensemble, and frameless mirrors with integrated perimeter lighting, which are versatile and functional, capable of adapting to different configurations and needs. Eclipse is not just a collection, but a sensory and visual experience that redefines the concept of the bathroom as a space for design and well-being.
