

ATRIUM

SUSTAINABLE SHOWER TRAY

KRION SHELL®

Krion Shell® is an Engineered Mineral Composite developed in-house by Krion. It consists of two parts: a structural inner core, made primarily of minerals (dolomite) with an eco-friendly resin binder, and a solid uniform outer surface made of mineral materials (ATH) and resins.

3/4 MINERALS

Most of the inner core of Krion Shell® is made of minerals (dolomite) found in abundance on the planet.

1/4 ECO-FRIENDLY RESINS

To bind the minerals, an eco-friendly resin is used, made of waste plastic. By using recycled PET plastics, waste materials are given a new life and a circular economy is promoted in the creation of Krion Shell®, minimizing the consumption of the planet's resources.

SCS Global Service, a leading North-American independent environmental certification agency, verifies and guarantees that all certified products made of Krion Shell® contain at least 5% recycled waste plastic in their composition, hence contributing to more sustainable, environmentally-friendly manufacturing processes.

At least 5% waste plastic is used in its total composition

Functional

ATRIUM is **impact resistant**, and offers the possibility of repair if necessary.

The advanced covering gives the shower tray unique properties such as **easy cleaning** and maintenance, which helps to reduce the time necessary for daily hygiene.

Additionally, the absence of joins **prevents the proliferation of bacteria** on the shower tray, an ideal characteristic for use in high transit areas.

Its **reduced thickness** allows surface or recessed installation, so that entering and leaving the shower is easy, even for people with reduced mobility, and allows the installation of any kind of shower screen on its edge.

Due to its composition, it has **sound absorption properties**, therefore the water falling on the shower tray makes minimal noise, allowing relaxed, peaceful atmospheres to be created.

Safe

The textures available in the ATRIUM shower tray have been designed with maximum personal safety in mind and to prevent minor accidents such as slipping.

White

High resistance to slipperiness

This texture presents one of the highest non-slip values thanks to its faithful high definition reproduction which maintains the reliefs of natural stone, but with the advantage of being made with Krión Shell®, which allows easy cleaning. Ideal for high traffic spaces, and use by people with reduced mobility and children.

Countless formats, adaptable on site

The wide variety of formats in which it is available and the possibility of adjusting the size on site make ATRIUM a very versatile shower tray, adaptable to any space.

It is not recommended to cut this side

The ATRIUM shower tray **can be customised** to fit any space

FORMATS (cm)

- 120 x 75 · 3,4h
- 120 x 80 · 3,4h
- 120 x 90 · 3,4h

- 150 x 75 · 3,7h
- 150 x 80 · 3,7h
- 150 x 90 · 3,7h

- 180 x 75 · 3,7h
- 180 x 80 · 3,7h
- 180 x 90 · 3,7h
