ATTICA

The simplicity of Attica, free of overhead profiles, brings visual lightness to the bathroom and a larger glass surface.

The technical fittings are designed with a lifting system that allows maximum adjustment of the closure.

Elegance and minimalism

The Attica shower screen comes in two finishes: glossy chrome and matte black. Combination of elegance and minimalism in the bathroom.

It has no profiles and the fittings are located at the ends of the glass for a larger glass surface. Lift-up hinges to avoid friction during use.
