

A modern, minimalist shower enclosure is the central focus. It features a glass door with a dark metal handle and a built-in shelf on the left side. The shelf is illuminated from below and holds various bathroom products. The shower is set against a light-colored wall and a white shower pan. The floor is made of terrazzo tiles, and a potted plant is visible in the foreground. In the background, a bathtub and a window with a view of greenery are visible.
