SHOWER ENCLOSURE

SP

PORCELANOSA

YOVE

It is born with a minimalist and modern spirit, with simplicity in its design lines while still maintaining a robust operation.

The restrained design of the hardware and profiles results in a larger glass surface, in addition to the great versatility of the models.

Diversity of models

A wide variety of Yove models have been created to cover all types of gaps in the bathroom. All of them with light and airy lines due to the 6 mm thickness of the glass.

Silent and smooth bearings that are at the same time resistant to use and the passage of time.
